COMPLETION OF TESTING OF FIRST SUPERCALENDER AT LENINGRAD PLANT

In 1949 - 1951, Soviet machine builders developed 1,600 new types of machines and mechanisms. In this period, Leningrad machine building enterprises mastered the production of nearly 400 new types of machines.

Recently, the Leningrad Paper-Making Plant imeni Vtoraya Pyatiletka completed testing the first supercalender, SKK-10, for the manufacture of condenser paper.

The unit puts out 100 meters of paper per minute. It can produce paper eight to ten times as fine as ordinary writing paper.
